## **A Creat Victory**

A Terrible Case of Scrofula **Cured** by

Hood's Sarsaparilla

In the winter of 1879 I was attacked with abscesses over and around my neck and throat, continually exading an offensive mass of bloody matter disgusting to behold, and almost intolerable to endure. It is impossible to fully describe my sufferings, as the ease was complicated with Chronic Catarrh. After three years of misery, having been treated by three years of misery, having been treated by three physicians, I was worse than ever. Finally, on the recommendation of W. J. Huntley, druggist, of Lockport, I was induced to try Hood's Sarsaparilla. And now, after having taken twelve bottles, within the last twelve months, the scrotulous eruptions have entirely ceased, and the abscesses have all disappeared, except the unsteady sears, which are daily becoming 'smaller by degrees, and beautifully less.' I do not know what it may may ease, Hood's Sarsaparilla has proved an effective specific indeed. As an evidence of my gratitude I send those facts unsoluted, and I am ready to verify the anthenticity of this cure, by personal correspondence with any one who doubts it." CHARLES A. The Chicago Inter-Ocean of today con ains the following account of Jay-Eye-See's great feat on the Freeport track

yesterday: This has been a great day on the race track at Taylor's park. One of the largest crowds ever assembled there on a similar occasion, estimated at 5,000, was present occasion, estimated at 5,000, was present to see the sport. The great attraction of the day was the race against time by the "King of the Turt," Jay-Eye-See, owned by J. I. Case, of Racine. When the little dark brown horse came out to score he was greeted with hearty cheers from the crowd. After being driven to and fro under the wire for a few miautes he was given the word, and around the track he went, making a warming up heat in 2:32.

About an hour later he was ready for the fast mile, and receiving the word "go" he dashed away, and without a single break, he trotted a mile in 2:124, passing

oreas, he trotted a mile in 2:121, passing before the judges' stand amid a round of deafening cheers. The first quarter mile was made in 341 seconds, the second in 1:074, and the three-quarters in 1:39. A man on a running horse followed close behind him. Taking everything in con-sideration horsewers said that the mile of sideration, horsemen said that the mile of today was as good a trial of speed as he The afternoon was cloudy, damp and more or less chilly. Altogether a poor day for making fast time on the race

track. Edwin Bither, driver of the little horse, was very much pleased, and said to the Inter Ocean correspondent that considering this was as good a mile as Jay Eye-See ever made, and he knows what he is talking about. As a token of approciation for the effort he made to atow fast time, a large and beautiful wreath of rare cut flowers, and a basket of flowers, were presented to Mr. Bither on the track, with the compliments of Miss Louise Paylor, sister of John B, Taylor, owner of the beautiful park where the races took place. The wreath was put over Mr. Bither's head as he sat believed the "Turf King," and after

extending instituals to the buly for the gift, he drove away and the shouts of sod will from admiring thousands. This was Jay Eye-See's first appearance before the public since three years ago this fall, and as a consequence the sport-ing world will hall with delight the fact int the western racer is still as sound as bullet and even a better horse than ever before. On a good day there is no doubt that Jay-Eye-See can beat his record of 2.10 without burting himself at all After his race today he was not the least bit worried, and could have gone another mile just as fast an hour later. Among the lookers on none were more pleased than Mr. and Mrs. J. I. Case, who hardly

The Henry county Old Settlers' society indulged in a log cabin raising at Cambridge last Friday. Enough logs had been gathered to build two cabine. As it is, the cabin is a double one, with a hallway. It is situated in the grove south of the dining hall, on the fair grounds. The neers worked with enthusiasm, and the ructure rose as if by magic. The floor is a puncheon one, that is it is made of slats hewn that on one side. The work
